der the license of the American Konnel Club at the Park City rink in State street, between Norman street and Lee avenue. The exhibition will be held on Thursday, Friday and Saturday and will be open from 10 o'clock in the morning until 10 o'clock in the evening. No menagerie with its variety of animals will be more interesting to visit than this show with its great variety of the members of the dog family. There will be dogs with hair as shaggy as the mane of the lion and little hairless dogs with no more hair on them than is on a china egg; dogs with great deep barks that make the windows rattle and little dogs whose bark will sound no louder than the chirp of a canary; and dogs that are worth \$300 a pound in the flesh.

The big dogs will be shown in elevated pens 4x5 ft, and then many of the delicate little creatures will be exhibited in glass cases not unlike baby incubators. The owner of one little toy dog which is to be shown refused an offer of \$1,500 for the animal a few weeks ago.

To the many men interested in field dogs it will be of interest for them to know that the best bred English seters in the world will be on exhibition at the show but not as competitors.

The left of exhibition will be don't have been large enough to hold the contestants. Those desiring to get passes to take dogs aboard the trolley cars to convey them to the show can secure the necessary permits at D. D. Smith's gun store, 44 Fairfield avenue. State street, between Norman street

Peary is not likely to return from here to Eagle Island before to-morrow and whether or not he will go from there to New York is as yet not definitely

It has been settled that the officers of the Peary Arctic Club shall pass upon Peary's accusations before they are issued in the form of a definite signed statement and the indications are strong that this signed attack will be issued from New York.

Neither Peary' or General Hubbard were accessable to-day to newspapermen and the probability is that little more will emanate from the Peary camp until he is ready formally to "nail" Cook over his own signature with the full approval of the Peary Arctic Club.

Capt. Hunt Gives Junk Dealer Lesson In Use of English

When is an officer not an officer? This was the question which A. Koplansky, the famous "rags and old botlansky, the famous "rags and old bottles" man had to have straightened out

I have a license so I got to buy. After I bought the papers a Salvation Army fellow came along and said to the man who sold the papers, "Why do you sell the papers given you to give the Salvation Army?" I asked him "Who are you?" Sailer is believed to be dy-

ever known. She is Miss Estelle Allen, who is sweet sixteen, not in the common use of the phrase, but exactly 16 and truly sweet. She is Selma Silverthorne, the princess of patches. She brings to the role the delightful vivacity of her years, and a necessary youthful interpretation of love's young dream. The part of Jack Merry, hero, is taken by Frank Glendon. Miss Allen is assisted by her father Alfred Allen, who plays Wiggins, a tramp, and by her mother, who plays Phoebe, and who is in league with villain to keep the heroine out of her own. The villain is Lee Silverthorn, and the part is played by Sidney L. Mason, whose acting is not half so villainous as the acting of some villains that have been seen in melodrama not so far away from Bridgeport. "The Princess in Patches" is a pleasant little play, with some good music thrown in. It is well worth the price.

Who Robbed Hep Wah,...

Or Was He Dreaming?

If Hop Wah, the Chinaman who has a laundry at 100 South avenue, near Main street, has not been having a pipe dream he was the victim early this morning of a most brazen burglary.

At police headquarters he said that two men, seen by a man living in his neighborhood, had broken into his laundry while he was sleeping and robbed him of \$7. They got in through a window.

In explaining why he was not awakes ened by the noise he replied that he was sure he had been doped by the swas sure he had been doped by the head! Furthermore the bed clothes were mostly pulled off him and everything was upside down in the room.

Detective Cronan is working on the case.

It would appear as if George Taylor, formerly employed by the Towe & Kohlmaler company as delivery boy, who is held for theft of clothing and money from the company as delivery boy, who is held for theft of clothing and money from the company is in bad. The state will push the charge against him. The boy's step-mother said this morning that arrangements had been made to reimburse the company by monthly payments.

The trial was to have come off this morning, but a new feature was presented by Mr. Towe, whotestifes that Taylor had taken money from a drawer with which the boy had nothing to do It was supposed by Assistant Prosecuting Attorney Redden that the theft had been committed from a cash register to which Taylor had access to make change when he waited on customers. In the latter case the charge was embezzlement. Mr. Towe's state-ment would make the charge t
